CROWN TOWERS SYDNEY

## CROWN TOWERS SYDNEY

The hotel has been designed not just to frame the views of Sydney Harbour's icons, but to stand alongside them as a defining landmark of this beautiful city. The sculptural form of the building is reminiscent of three petals twisting together towards the sky, designed by award-winning British architecture firm Wilkinson Eyre.

Prestigious New York City-based Meyer Davis created thoughtful touches effortlessly integrating Crown's signature luxury with Sydney's coastal landscape. Bespoke design features in natural and aqua hues compose a modern residential décor with generous spaces, intuitive technology and perfectly framed waterfront or city skyline views.
